**PLATFORM:** Interaction with the centralised platform is possible through the PEPPOL or E-MAIL channels:

- PEPPOL: the company identifier is based on the 9930:VATID convention (example: "9930:DE123456789").
- E-MAIL: the Transmission and Reception of the invoice as an attachment to an e-mail shall be based on e-mail addresses created and managed independently by the Service.

**STANDARD:** The three formats compatible with the 'EN 16931' standard are accepted for Transmission:

- Xrechnung: structured XML format according to CII (Cross Industry Invoice) syntax or according to UBL (Universal Business Language) syntax.
- ZUGFerRD: PDF/A-3 (human readable) format with embedded XML file according to CII syntax.
